A a glance

W classroom learning hands-on opportunity

Students take part in experiential and work-integrated learning each year, applying classroom learnings within their chosen field. Most students will apply for experiential learning programs in their second or third year of study.

Continued growth of Nova Scotia's industry and labour markets means you don't have to leave the province to work with leading firms and innovative start-ups across a variety of developing and established sectors.

Experiential learning opportunities outside of Nova Scotia are always an option, keeping the East Coast as your home base.

- Cooperative education (co-op)
- Internships
- Practicums & placements
- Field courses
- Study abroad & International exchanges

Students who complete a co-operative education program graduate with a full year of work experience on their resume. Like third-year mechanical engineering student [redacted] who spent his first work term with the Research and Development team at the [redacted] factory in England.

Hear from other students about their Dal experience at [redacted]

"It was an overall great experience to work and live in England and I was excited every day to go to work with such a world-class team. Knowing that my projects and tests will have a potential impact on the cars' performance makes them all incredibly special."

– JOHN MACISAAC

Dalhousie's financial awards and assistance program includes scholarships, bursaries, emergency loans, on-campus employment, and other forms of financial assistance. Each year, more than 2,000 entrance awards are available.

Most awards at Dalhousie require a separate application found in your online application portal. For more information, please visit

Nova Scotian students studying in Nova Scotia can qualify for the Nova Scotia University Student Bursary.
